

My family has been going to Chuck Pechin for over 4 years. Whenever my kids are hurt or sore from any sporting activity, the first thing they want to do is get an appointment with Chuck to work out all the aches. They are sore when they go to see him, but come out feeling better every time. We've gone to Chuck for ankles, hamstrings, sore backs, tight shoulders, neck pain...anything that causes pain he figures out a way to relieve the pain quickly so that they are back out playing sports faster than ever, without pain.
